

MATIAS BUBELLO

Full Stack Developer | Technical Lead | Software Architect

Full Stack Developer with 5+ years of experience in web development, technical leadership, and software architecture. Specialized in React, Next.js, Laravel, Node.js, and the JavaScript/TypeScript ecosystem. Experienced in leading multidisciplinary teams, designing scalable architectures, implementing development best practices, and aligning processes with ISO 27001 standards. Focused on software quality, continuous improvement, and delivering business-oriented solutions.

PROFESSIONAL EXPERIENCE

Team Leader | Full Stack Developer – Minimalart (Jan 2025 – Present)

Lead web development projects as technical lead and team coordinator. Responsible for software architecture, mentoring developers, code reviews, quality standards, and collaboration with Compliance and Audit teams under ISO 27001 guidelines.

Technologies: React, Next.js, Laravel, PHP, TypeScript, MySQL, AWS, GitLab, ISO 27001.

Software Architect & Developer – Contractor (Mar 2020 – Present)

Design and develop custom web solutions for clients across multiple industries. Build scalable applications, integrate APIs and third-party services, and work with relational and NoSQL databases while focusing on performance, SEO, accessibility, and security.

Technologies: React, Next.js, Node.js, Laravel, PHP, MySQL, PostgreSQL, MongoDB.

Full Stack Developer – Promotive (Mar 2023 – Jan 2025)

Developed and maintained automotive catalog and data management platforms. Optimized database queries, integrated external providers, and improved performance and user experience for both internal systems and public-facing applications.

Full Stack Developer – Domo SRL (Sep 2020 – Mar 2023)

Participated in the development of websites and mobile applications for diverse clients, applying software engineering best practices, agile methodologies, and user-centered design.
